A Sample Results of Pororo-SV Dataset

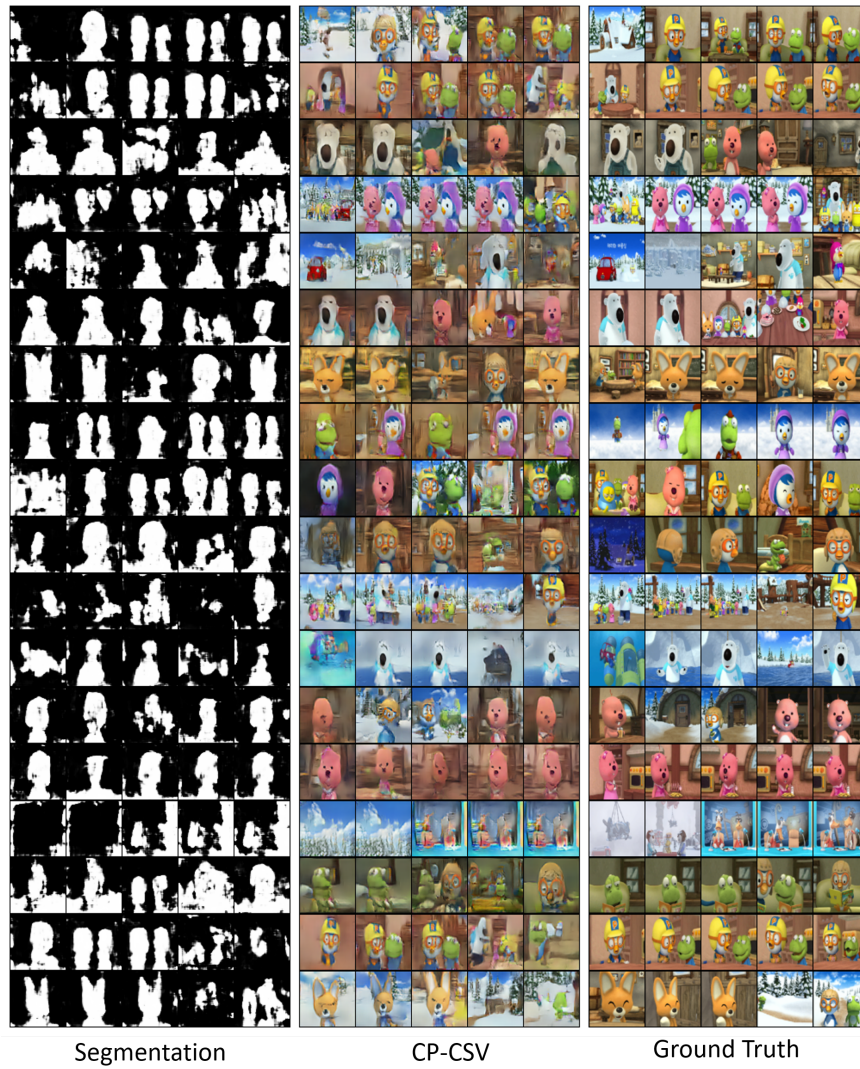

Fig. 7: Left two columns are the generated segmentation and image sequences of CP-CSV on Pororo-SV test dataset, and the ground truths are on the right side.

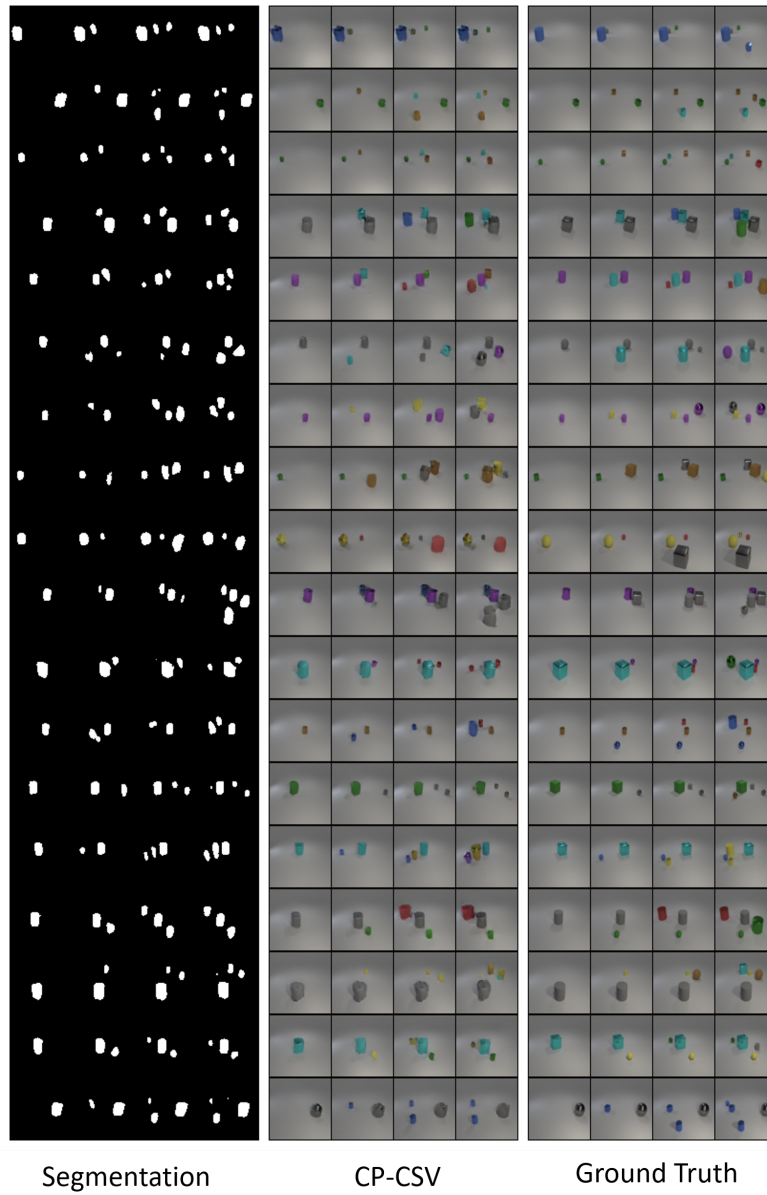

B Sample Results of Clever Dataset

Fig. 8: The sequence length of Clever dataset is four. Left two columns are the generated segmentation and image sequences of CP-CSV on test dataset, and the ground truths are on the right side.

C Sample Results with Different FSD

Fig. 9: The generated samples of CP-CSV on Pororo-SV test dataset under different training epochs. The FSD scores are 176.98, 92.84, 66.71, from left to right.
