This document contais supplementary material for the paper *Principal Feature Visualisation in Convolutional Neural Networks* published at ECCV 2020 (paper ID 4198). Please see the paper for details on experimental setup.

Our code is available at `https://github.com/SINTEF/PFV`.

1 PASCAL VOC examples

Same setup as in Section 5.2 of the paper.
1.1 Batches of 20 classes
